

Building Blocks

a support group for teen survivors of sexual abuse

Building Blocks is a support group created for teens who have experienced sexual abuse. The group atmosphere provides a safe and confidential place to continue healing from the impact of abuse.

In the Building Blocks group teens benefit from learning that they are not alone. Many hands-on activities have been developed to encourage expression of feelings and assist with building self-esteem.

BUILDING BLOCKS

*Building Self-Esteem, Assertiveness and Empowerment
While healing from sexual abuse*
